REPORT OF THE SPEECH

18/07/18

The chief Guest Dr.M.Vathapureeswaran addressed on the State Level One Day Workshop on the topic "Language and its Functions". So he summarises on the following points.

Language is the most important tool of communication invented by human civilization. Language helps us share our thoughts, and understand others. It's hard to overestimate the importance of language for our lives. Every time we speak, we do it with a particular purpose. Sometimes we want to deliver a message, or express our feelings. We use language to ask for help, or just to say a joke.

Generally, there are five main functions of language, which are informational function, aesthetic function, expressive, phatic, and directive functions. Any language is determined by a number of factors, such as a social background, attitudes and origin of people. Language is always related to situation it is used within. Every person has a certain social background, and this is what determines one's language.

We are going to consider different functions of language, and its connection to social circumstances, since language is related to the type of social organization.

As we mentioned above, language is used in every part of our lives, and it's the most important part of communication. We use language in every situation, every time we need something. In turn, our needs determine our language, since we choose a type of language that is most effective for our needs.

Every our sentence has its particular function. It may express a statement, or a question. It also may be just an exclamation. If we want to know something, we create a sentence in the form of a question. In other case, if we want to share information or emotions, we choose a statement structure.

CAREER MANAGEMENT ACCOUNTING

Date: 4-10-2018

“Career Management Accounting” Program was organized on 4-10-2018, commemorate the thoughts of career management accounting among the female participants for the benefits of female faculty members and students community.

Resource person:

N. Kavitha MSW., M.com., M.phil.,
Assistant Professor of Commerce
Madurai Institute of Social Science college
Madurai

No. of Participants : 57

Venue : III year B.Com class room

Date of Event : 4-10-2018

Time : 1.30 PM

The program was intended to create awareness among thoughts feeling hopeless about the future

The seminar helped the audience gain better understanding of the CMA program and the relevance of Management Accountants in the current business scenario and it help the students to understand the structure of the test system and the roles and responsibilities of a management accountant. It also outlined the pathways to achieving such certification and the various benefits of the same.

Department of B.Com (CA) organized a Seminar "Foreign Exchange Management" on 19.03.2019 with an aspire to create awareness about Share market.

Resource persons:

Dr.R.Rajendren,
Head, Dept of Commerce (CA),
Govt.Arts College Paramakudi.

Event Co-ordinator:

Mrs.M.Shanthi -HOD/B.COM (CA)

No. of participants : 269
Venue : AM HALL
Date of the event : 19.03.2019

Report on Meeting:

The Speaker insists India has made tremendous progress in building a policy environment to encourage investment. As a result, the country's economy is growing more rapidly and FDI inflows have accelerated impressively. However, investment remains insufficient to meet India's needs, particularly in infrastructure. Current efforts to strengthen and liberalise the regulatory framework for investment need to be intensified and India's well-developed economic legislation implemented at an accelerated pace both at national level and right across India's states and union territories.

SUMMARY REPORT

Workshop Lecturer on **Robotics in C**

The Department of Computer Science, Ambiga College of Arts And Science For Women organized a workshop on 20th August 2018, Seminar Hall. The Guest Speaker was Mrs. P. Latha, Asst. Professor of Government women's college, Mellur. The event started with invocation song followed by a welcome address. The guest lecturer was preceded by a short talk by the Principal. In the occasion, the guest emphasized the importance of the Robotics in C. The lecture started around 2.15 PM and ended around 3.45 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The even ended with honorarium to the guests and vote of thanks.

No .of .Participants : 184

Venue : A.M.HALL

Date of the Event : 30.8.2018

Title : Numerical Methods for ordinary Differential Equation

Abstract :

Numerical methods for ordinary differential equations are methods used to find numerical approximations to the solutions of ordinary differential equations (ODEs). Their use is also known as "numerical integration", although this term is sometimes taken to mean the computation of integrals.

Many differential equations cannot be solved using symbolic computation ("analysis"). For practical purposes, however – such as in engineering – a numeric approximation to the solution is often sufficient. The algorithms studied here can be used to compute such an approximation. An alternative method is to use techniques from calculus to obtain a series expansion of the solution.

Ordinary differential equations occur in many scientific disciplines, for instance in physics, chemistry, biology, and economics. In addition, some methods in numerical partial differential equations convert the partial differential equation into an ordinary differential equation, which must then be solved.

These were explained in the seminar and the Students were much attentive & interactive through the program and it is was carried out more lively by the chief guest.

DEPARTMENT OF COSTUME DESIGNING AND FASHION TECHNOLOGY

REPORT

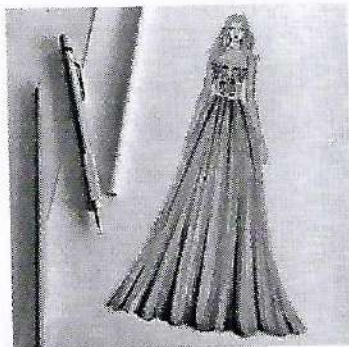

The Art and Science of fashion

Science plays a major role in design development of fashion clothing and accessories, just a glimpse into the past will confirm enough to be true. It's not a jumbled business of cloth and colors loosely thrown together, rather, a well organized industry driven by the sciences, from market research to weaving, printing, dyeing, pattern making, branding and labeling; scientific intervention supports artist's continuum.

Fashionary is most well-known for its fashion sketchbooks, tailor-made for fashion designers, as well as its foldout paper panels with men's, women's, and children's figure templates. In addition, Fashionary offers new tape measures marked with runway models' body measurements and an Essential Boxset, which bundles all of its fantastic products together. All of these are perfect tools to get you started. How to create a fashion sketch

Fashion-sketching tool list:

1. Fashionary sketchbooks
2. Drawing pencils
3. Pencil sharpeners and erasers
4. Fine black pens
5. Watercolor set
6. Markers
7. Colored pencils

REPORT OF THE SPEECH

08/08/2017

The Chief Guest Dr.S.Kavitha Assistant Professor/ from Thiagarajar College addressed on the State Level One Day Workshop on the topic "History of Journalism and Print Media". So she summarizes on the following points.

Journalism first came about in print, spreading the news to the public. Journalists would cover stories, or single news features, and that information would be collected into one publication released in certain time intervals, either daily, weekly, or less frequently. Print encompasses the entire world of newspapers, magazines, and even nonfiction books.

Print media was one of the first sources for journalists to spread the news to the public. It began with announcement bulletins that were carved in stone, wood, or metal and then placed publicly in Ancient Rome and Egypt. Eventually in China, the government began circulating news bulletins. The practice of handwritten news sheets was practiced not only in China, but in Europe as well, eventually evolving into the newspaper, magazine, and books.

Movable printing presses began to make print media infinitely easier. The technology was first invented in the 9th century in China by Bi Sheng, a Han Chinese printer. In the 1450, Johannes Gutenberg, a German printer and goldsmith, invented a mechanical movable printing device that would eventually change the face of printing all over the world. It helped establish an assembly-line style of book printing. As more methods of printing became accessible, journalists had different ways to release their work.

No. of participants : 269
Venue : AM HALL
Date of the event : 19.12.2017

Report on Meeting:

The Speaker insists we are on the threshold of major reforms to meet the challenge of change in the context of the emerging economic and industrial scenario. Government, both at the State and the Central levels, has taken a number of legislative initiatives that present a changing legal scenario. Time is opportune for line Managers to get acquainted with the changing laws and responsibilities.

SEMINAR ON MATHEMATICS IN ORBIT DYNAMICS

Department of Mathematics has organized "Seminar On Mathematics in Orbit Dynamics" programme on 31.07.2017. Thus to attain knowledge about Mathematical Statistics.

Resource Person : Dr.K.Krishnan
Saraswathy Narayan College
Madurai-20

No .of .Participants : 177

Venue : A.M.HALL

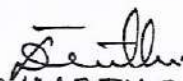

Date of the Event : 31.07.2017

Title : Probability in Orbit Dyanmics

Abstract :

Probability theory can also come in handy, particularly when coupled with the estimation/determination problem. We have the ability to take very precise measurements of a satellite on-orbit, and these may be used to update the state of the satellite (via filtering and least squares, among other techniques), but inherent uncertainty in the measurements and the dynamics models will lead to uncertainty in the state estimate. Understanding how to characterize and propagate this uncertainty is currently a very hot topic of research. Additionally, most of the processes involved in orbit propagation and determination are nonlinear, which adds complexity to the estimation process.

These were explained in the seminar and the Students were much attentive & interactive through the program and it is was carried out more lively by the chief guest.

REPORT

Students of I, II and III B.Sc., Chemistry are enjoyed very much about this guest lecture; students get more awareness for the study of cluster compounds is an active area of current research. The scope is widening and systematic methods. . It seems likely that it will eventually be found that such compounds may -involve almost any element, perhaps with the exception of the most electropositive.

DEPARTMENT OF CHEMISTRY

REPORT

Students of I, II and III B.Sc., Chemistry are enjoyed very much about this guest lecture; students get more awareness for synthetic sequence, usually with high atom economy. Herein, we report three examples of new asymmetric tandem reactions recently developed in our laboratories, giving rise to new families of enantiomerically enriched fluorinated and nonfluorinated heterocycles.

CURRENT ISSUES IN CORPORATE ETHICS AND GOVERNANCE

Date: 14-08-2016

“Current issues in corporate ethics and governance“ Program was organized on 14-08-2016 , commemorate the thoughts of Current issues in corporate ethics among the female participants for the benefits of female faculty members and students community.

Resource person:

R. Shobana M.Com., M.Phil.,
HOD of Commerce
Ambiga College of Arts and Science for Women
Madurai

No. of Participants : 61
Venue : I year B.Com class room
Date of Event : 14-08-2016
Time : 1.30 PM

The program was intended to create awareness among thoughts feeling hopeless about the future

Student seminar were conducted on the topic of ‘Current Issues in Corporate Ethics and Governance’ through three sessions. These sessions were conducted by Department of commerce on the topics ‘Provisions of Companies Act, 2013 on Corporate Ethics and Governance’, ‘Cases of Corporate Frauds and Lessons Thereof’ and ‘Business Ethics and Corporate Social Responsibility’ respectively.

SUMMARY REPORT

Workshop Lecturer on **Digital Forensics in Network Security**

The Department of Computer Science, Ambiga College of Arts And Science For Women organized a workshop on 27th July 2016, Seminar Hall. The Guest Speaker was Mrs. S. Siva Ranjani, Asst. Prof of Sourashtra College, Madurai. The event started with invocation song followed by a welcome address. The guest lecturer was preceded by a short talk by the Principal. In the occasion, the guest emphasized the importance of the Digital Forensics in Network Security. The lecture started around 2.15 PM and ended around 3.45 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The even ended with honorarium to the guests and vote of thanks.

Title : Application of Linear Programming in Profit Maximization

Abstract :

The main objective of this paper is to optimize (maximize) the net return of Central Bank of India in the area of interest from loans such as Personal loan, Car loan, Home loan, Agricultural loan, Commercial loan, Education loan and also maximize the net return of the investor by investing some amount in the investment policy of Central Bank of India such as Fixed Deposit, Saving Account, Public Provident fund and other investment Policies. The linear programming technique is applied to maximize profit of the Bank and the investor. Index Terms- Linear Programming Model, Objective function, Constraints, Decision variables, Simplex method, Maximization, Marginal cost of funds based Lending Rate.

REPORT OF THE SPEECH

16/02/2016

The Chief Guest Dr.D.Geetha from Yadava College addressed on the State Level One Day Workshop on the topic "Translation Theories". So she summarizes on the following points.

Translation studies is an academic inter discipline dealing with the systematic study of the theory, description and application of translation, interpreting, and localization. As an inter discipline, Translation Studies borrows much from the various fields of study that support translation. These include comparative literature, computer science, history, linguistics, philology, philosophy, semiotics, and terminology.

According to Roman Jakobson, translation activity is mainly of three types.

1. Intra-lingual translation— It is 'rewording,' that is an interpretation of verbal signs by means of other signs in the same language.

2. Inter-lingual translation—It is known as 'translation' proper. It involves an interpretation of verbal signs by means of some other language. For example, inter-lingual translation is from Oriya to Bangla, English etc.

3. Inter-semiotic translation—It is called 'transmutation' in which verbal signs are interpreted by means of non-verbal sign systems. For example, inter-semiotic translation is from verbal art into music, dance, cinema or painting. Here we are concerned with inter-lingual translation that is translation proper.

During the pre-linguistic period of writing on translation, starting from Cicero through St. Jerome, Luther, Dryden, stressed either on literal or free, faithful or beautiful, exact or natural translation, depending on whether the translation favoured the author or the reader, the source or the target language of the text. Until the nineteenth century literal translation was mainly a philological academic exercise and cultural reformers tried to save literature from it.

REPORT OF THE SPEECH

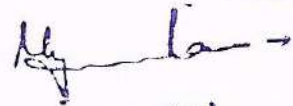

16/09/2015

The Chief Guest Dr.A.Raviek Kumar Professor/Head from KLN Engineering College addressed on the State Level One Day Workshop on the topic "Media in Literature". So he summarizes on the following points.

Media are the various material ways information can be communicated. The fields of media studies and media theory are dedicated to the analysis and understanding of the myriad media through which information is communicated. Under the influence of these fields, the media through which literature is communicated is no longer considered secondary to the literary content or form, but deserving attention in its own right. Moreover, literary content and form can and often are deeply influenced by media of their transmission, as well as by the particular forms of media prevalent at the time and place of their production.

Media theory is the theory of how media function and how they influence perception. Media studies in the field are devoted to the study and analysis of the variety of media humans use to transmit and archive data.

New media theory is largely concerned with media dependent on digital rather than analogue technology. Digital technology is technology that utilizes a binary code to transmit or archive data. Data that has been archived or transmitted in this form is then recomposed in a format, or interface, suited to the needs of an end user. Analogue technology, in contrast, transmits and archives information without converting it into code, although the material of the information may indeed be altered. For instance, a telephone using analogue technology converts the vibrations in the air coming from a speaker's vocal cords into an electronic pattern that then recreates those vibrations in a receiver on the other end of the line. A telephone or computer using digital technology achieves the same effect by encoding those patterns into binary code and then recomposing them with an appropriate interface on the other end.

Respected Madam,

It was a great privilege and an honour to have you here among us as the chief guest on the guest lecture programme on "**Financial Innovations: Challenges and Opportunities**" for the all I year UG students. We are immensely thankful for devoting some time for us from your extremely busy schedule. I am sure they learnt a lot from your experience and service. Today your presence in this program has touched hearts and souls of many.

WORKSHOP ON PURE MATHEMATICS

Department of Mathematics has organized "Workshop on Pure Mathematics" programme on 11.09.2015. Thus to attain knowledge about Mathematical Statistics.

Resource Person : Dr.L.Rajendran M.Sc.,M.Phil.,Ph.D.,
The Madura College
Madurai-20

No .of .Participants : 139

Venue : A.M.HALL

Date of the Event : 11.09.2015

Title : History of Pure Mathematics & Generalisations in Pure Mathematics

Abstract :

One central concept in pure mathematics is the idea of generality; pure mathematics often exhibits a trend towards increased generality. Uses and advantages of generality include the following:

- Generalizing theorems or mathematical structures can lead to deeper understanding of the original theorems or structures
- Generality can simplify the presentation of material, resulting in shorter proofs or arguments that are easier to follow.
- One can use generality to avoid duplication of effort, proving a general result instead of having to prove separate cases independently, or using results from other areas of mathematics.
- Generality can facilitate connections between different branches of mathematics. Category theory is one area of mathematics dedicated to exploring this commonality of structure as it plays out in some areas of math.

These were explained in the seminar and the Students were much attentive & interactive through the program and it is was carried out more lively by the chief guest.

REPORT OF THE SPEECH

03/02/15

The chief Guest Mrs.T.Senthil Veerakumari from Thiagarajar College addressed on the State Level One Day Workshop on the topic "Usage of Teaching Aids in English Language Teaching". So she summarises on the following points.

Learning and teaching a foreign language needs a lot of patience, energy, time, creativity and competence. The success of the teaching and learning of foreign language skills including English is determined by a number of factors both linguistic and non linguistic such as the students, the teacher, the methods, material and media or aids used.

English teaching media are very important to help students acquire new concepts of, the skills and language competences. They are many kinds of media which can be used by the teachers in the teaching learning process, but the teacher should be selective when choosing.

Any aid which facilitates or encourages learning through the senses of hearing and sight is called instructional aides(teaching aids). It can be used to help the students learn.

A teaching aid is a tool used by teachers to help learners improve reading and other skills, illustrate or reinforce a skill, fact or idea and relieve anxiety, fears or boredom.

REPORT OF THE SPEECH

16/07/14

The chief Guest Mrs.T.Sivapriya from K.L.N.College of Engineering addressed on the State Level One Day Workshop on the topic "Feminine Criticism". So she summarises on the following points.

Feminist criticism is a form of literary criticism that is based on feminist theories. It is broadly explained as the politics of feminism and uses feminist principles to critique the male-dominated literature. The root cause of this type of criticism lies in the oppression of women in social, political, economic and psychological literature.

Women have been ignored or mostly considered secondary in the literature for a long time. The feminist criticism aims to view them in a different perspective and discover the women's contribution to the history of literature. It also aims to reinterpret the old texts and establishing the importance of women's writing to save them from being lost or ignored in the male-dominated world.

Feminist theory also looks for the possibilities and ways to remove the inherent sexism as a practice of writing from the mainstream literature. Apart from this, the goal of feminist criticism is to bring awareness about the sexual politics and analyse the writings of women writers from the feminist perspective. It also includes the language and style of writing to determine the relationship between the genders in terms of the power.

E-COMMERCE AND DIGITAL MARKETING

Date: 18-08-2014

“E-commerce and Digital Marketing“ Program was organized on 18-08-2014 ,
commemorate the thoughts of e-commerce and digital marketing uses for the benefits of female
faculty members and students community.

Resource person:

S.Mahima M.Com., M.Phil., MBA.

HOD of Commerce

NMR College

Madurai

No. of Participants : 65

Venue : II year B.Com class room

Date of Event : 18-08-2014

Time : 1.30 PM

The program was intended to create awareness among thoughts feeling hopeless about the future

The seminar was conducted on 18th October 2014 the speaker spoke about the
Ecommerce marketing is the act of driving awareness and action toward a business that sells
its product or service electronically. Ecommerce marketers can use social media, digital
content, search engines, and email campaigns to attract visitors and facilitate purchases
online. Ecommerce marketing is just one community of marketers who can use the principles
of digital and inbound marketing to convert visitors into customers.

Report on Meeting:

The Speaker insists Management accounting practices have become increasingly progressive since the 1980s. What are the trends? They include channel and customer profitability reporting, integration of enterprise performance management methods (e.g., strategy maps, balanced scorecard), driver-based rolling financial forecasts, applying analytics, and co-existing methods (e.g. lean accounting). Accounting professionals need mastery with these. Ultimately costing principles, such as the causality principle, must be converted into practical practices with supporting tools. This article examines how cost modelling has evolved over the last century. It describes the trends and obstacles that have helped or delayed developments.

Report on Meeting:

The Speaker insists Indian banking system has changed from the traditional way in providing the service to the customers into digitalized form where all the transaction are fulfilled in a minute. As the technology develops each day, Indian banking system adopts the latest up gradation and technology to make use of online banking, telephone banking, mobile banking, ATM, CDM, passbook entry machine. The present study is to examine customer's preference in utilizing the digital products and the problems faced by customers.

SUMMARY REPORT

Workshop Lecturer on Soft Computing

The Department of Computer Science, Ambiga College of Arts And Science For Women organized a workshop on 30th September, 2014, Seminar Hall. The Guest Speaker was Mrs. S. Hemavathi, Asst. Professor of The Madura College, Madurai. The event started with invocation song followed by a welcome address. The guest lecturer was preceded by a short talk by the Principal. In the occasion, the guest emphasized the importance of the Soft Computing. The lecture started around 2.15 PM and ended around 3.45 PM. The lecture was received with admiration by the students and they also found the slides appropriate. The even ended with honorarium to the guests and vote of thanks.
